Chemical Science Companies in India

List Of Chemical Companies Chemical Science Candidates Can Work For

One of the oldest industries in India, the chemical industry is a significant part of the Indian economy and by supplying products and raw materials, it contributes to a lot of other sectors. Globally, India is the sixth-largest producer of chemicals and the third-largest in Asia with a coverage of over 80 thousand products. The chemical industry in India constitutes of basic chemicals and their related products such as pharmaceuticals, varnishes, paints, fertilizers, petrochemicals, etc. Chemicals cover an array of more than 70,000 commercial products among the most diversified industrial sectors.

This highly diversified industry field consists of various companies under different categories of the chemical industry.

In this article, we have given a list of reputed Chemical Companies in India where chemical sciences and life sciences candidates with the appropriate degree and eligibility can secure a suitable job and shape their career!

The list includes more than 100 chemical companies in India and the company's website details where you can check for the current job openings and the recruitment process.

CHEMICAL SCIENCE COMPANIES

Shortlisted Chemical Companies consist of

- Refinery Companies
- Petrochemicals Companies
- Fertilizer Companies
- Pharmacy companies
- Paint and Adhesive Companies
- Agro Chemicals Companies
- Chemical Companies
- Catalyst Manufacturer Companies,
- and FMCG (Fast-moving Consumer Goods) Companies.

For Refinery Companies, the recruitment process is Campus + Gate + Experience. The companies recruit candidates through the GATE exam for the post of a management trainee. The best way to get into these companies is to prepare for the GATE exam. With a good score, you can be selected as a management trainee.

Generally, for all the below-mentioned companies, the recruitment process will be published on their website. Some pharma companies from this list recruit through campus placements, while most will have the job openings notified on their websites. Keep tracking the company's websites and when there is a job notification, follow the instructions, and apply accordingly. If your resume gets shortlisted, you will be called for the interview, and you can bag the job if you crack the recruitment process.

To get job notifications from all the below companies at one place, keep visiting Rasayanika.com.
